The Gulfstream G200 is a luxurious super-midsize jet, designed to create a sense of space and comfort during short trips or long-range transcontinental flights. It is one of the fastest and longest-range super-midsize jets and its external baggage compartment can hold up to 10 suitcases.

The G200's spacious cabin is larger than many of its competitors. It can be designed in a variety of ways, but our G200 is capable of accommodating up to 10 passengers, who will enjoy an ultra-quiet cabin atmosphere, elegantly designed with fine leather seating and exquisite wood finishes.
